

# **PVC Ball Valve Perfect For Industrial Applications DN10-200**

## **Basic Information**

Place of Origin: ChinaBrand Name: FABIA

• Certification: ISO9001,CE,CCS,DNV

Model Number: 1/8 inch 36 inch

Minimum Order
 ...

Quantity:

1 set

Price: Negotiable

• Packaging Details: Cartons/Wooden cases

• Delivery Time: 15-30 work days

• Payment Terms: L/C,D/A,D/P,T/T,MoneyGram,Western Union

• Supply Ability: 100-1000 set per week

# **Product Specification**

Product Name:
 PVC Double Order Ball Valve

Operation: Pneumatic
 Valve Type: Two-way
 Connection: Butt Weld
 Size: DN10-200

• Standard: ANSI, DIN, JIS, GB

Pressure: 150-600 PSI
 Temperature: -40-135°C

## **Product Description**

## **DN10-200 PVC Ball Valve Perfect For Industrial Applications**

#### 1. Description:

Ball Valve is widely used in various industries, including oil and gas, chemical, water treatment, and many more.

#### 2. Specification:

FABIA Valve Parameter List	
Valve type:	DN10-200 PVC Ball Valve Perfect For Industrial Applications
Size:	1/8 inch 8 inch
Material:	WCB,Q235B,2507,A105,CF8(304),CF8M(316),CF3M (316L),CF3(304L),PVC,ZG1Cr18Ni9Ti,ZG1Cr18Ni12Mo2Ti
Connection type:	Welded connection/flange connection/thread connection/clamp connection
Driving model:	Manual/Worm gear drive/Pneumatic/Electric
Pressure rating:	PN1.0 PN64,ANSI CLASS 150-900,JIS10-20K
Temperature:	-196 540
Model:	FB-Q

## 3. Features

#### 1. Industrial Process Control

In industrial processes, precise fluid control is crucial. Our FB Ball Valve is designed to handle a wide range of fluids, including corrosive and abrasive materials, making it suitable for use in various industrial processes.

#### 2. Water Treatment Plants

The FB Ball Valve is an excellent choice for water treatment plants, where it is used to control the flow of water, chemicals, and other materials. Its high-quality construction and resistance to corrosion make it a reliable option for long-term use.

## 3. Oil and Gas Industry

The oil and gas industry requires valves that can withstand high pressure and harsh environments. Our FB Ball Valve is designed to handle these conditions and is widely used in pipelines, refineries, and other oil and gas facilities.

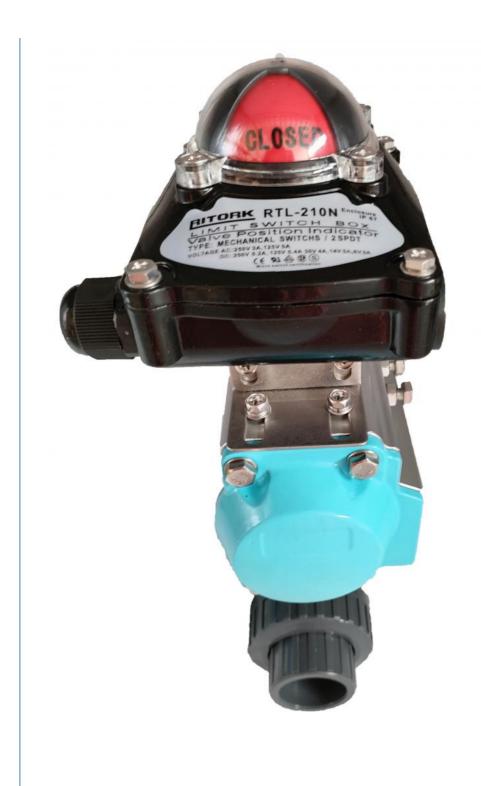

## 4. Chemical Processing

Chemical processing plants require valves that can handle a wide range of chemicals and maintain precise control over their flow. Our FB Ball Valve is designed to handle corrosive and abrasive materials, making it an ideal choice for chemical processing applications.

#### HVAC Systems

The FB Ball Valve is also suitable for use in HVAC systems, where it is used to control the flow of water and other fluids. Its compact design and easy installation make it a popular choice for HVAC contractors.
